

THINKFABRICATE

Dyker Heights Residence Custom Lighting and Cabinetry

Working in collaboration with Doban Architecture, Think Fabricate designed and fabricated custom furnishings and lighting throughout this renovation project. The bedroom features custom versions of our Brooklyn TV Quilt, as well as a pair of gold-lacquered night stands and custom walnut headboard. Our Think Lanterns, including a new, smaller chandelier configuration, are used in the hallway as well as in the kitchen and dining area. New takes on our wall*nut medicine cabinets are used in three of the newly renovated bathrooms, with coordinating vanities. Custom storage units have also been created at the entry and as a focal point for the living room.

Project Type Interior Renovation, Furnishing Design and Fabrication
Location Brooklyn, New York
Architect Doban Architecture
Completion Date 2015
